

VERBOICE

There are more than
7 Billion
Devices
Worldwide

OVER HALF OF THE
WORLD POPULATION
OWN MOBILE PHONES

Mobile phones have become
a basic need, always
nearby and turned on

Mobile phones allow
communication with the distant
and hard to reach, such as
laborers, and new mothers.

Voice is the most Universal and
Inclusive form of communication.

THAT'S WHY WE CREATED :

Verboice

An open-source tool that
sends and receives information
using voice messaging
